# MUSTANG™

Mustang is an acrylic coated 100% woven polyester fabric (450 denier) with a proprietary coating on the top and bottom, allowing the fabric to be completely reversible. It is characterized by excellent strength, durability, tear and abrasion resistance, dimensional stability, & UV and mildew resistance. Mustang is a medium weight fabric that provides long lasting durability without the high cost and weight of heavier fabrics with better performance than similarly priced fabrics. Mustang can be used for many outdoor applications such as marine tops, trailer covers, bimini tops, gazebos, canopies, tarps, playground equipment covers, BBQ grill covers, patio furniture covers and many other useful applications.

*Mustang, a mid-weight alternative.*
